NO MEETING OF CONFERREES.
House Members Wait in Vain for the Appointed Senators.
(By Associated Press.)
WASHINGTON, Aug. 11.—The House Tariff conference gathered promptly at 10 o'clock this morning, in the room of the Senate Committee on Interstate Commerce, and remained there during the entire forenoon; but they waited in vain for the Senate conferees. They sent messengers about the Capitol for the Senators, but the search proved unavailing. None of the Senate members of the Conference could be found at the Capitol.
It was made very evident that they had put themselves beyond call for the conference. Consequently there was no meeting and no result.
Very little can be learned as to how the Administration regards the present crisis. There was a vague report circulated about the Capitol that Secretary Carlisle had been an early visitor there, but no one could be found who would admit having actually seen and conversed with him.
It is known, however, that he regards the proceedings with deep concern, and that he has exercised his strongest influence to bring about a compromise. His friends say that he feels that it would be disastrous to have Congress adjourn without enacting a tariff bill, because especially of the effect such failure would have upon the revenues of the country.

BIG BATTLE OF FLEETS.

Twenty-one Chinese and Japanese Ships Reported in Conflict.

MORE DEFEATS FOR THE JAPS.
They Lose at Port Hamilton and in a Second Fight at Wei-Hai-Wei.

CHINESE NOT CAUGHT NAPPING.
Forts and Small Gunboats Ready Where a Fleet Had Sailed Away.

SHANGHAI, Aug. 11.—A despatch received here says that the Pei-Yang fleet is engaged with a Japanese fleet, and that a stubborn battle is being fought. Twenty-one ships are taking part in this fight.

Advices from Chee-Foo state that the Japanese attacked Port Hamilton (Port Arthur) yesterday evening and were repulsed.

The despatch says that the Japanese made a daring attempt to capture the forts and arsenal at Wei-Hai-Wei. Four cruisers and several smaller vessels led the Japanese advance. The first shots were exchanged at daylight.

The Japanese apparently expected to take the Chinese by surprise, while the latter's warships were away, as the Chinese squadron, with the exception of some small gunboats and torpedo vessels, sailed the day before for another port.

But the gunboats and forts kept up such a well-directed fire that the Japanese were unable to enter the harbor. The Chinese torpedo boats were then ordered to advance, and when they did so, the Japanese fleet retired.

Later, the same fleet of Japanese vessels began an attack upon the other entrance of the harbor. The result of this second attack was another repulse.

LONDON, August 11.—The Government has received a despatch confirming the announcements of further fighting between the Chinese and Japanese. The Government advises that the Japanese were making an attack upon the important naval station at Wei-Hai-Wei, but no details were given.

The reported attack upon Port Hamilton is regarded here as undoubtedly a reference to Port Arthur, which is a Chinese naval port facing Wei-Hai-Wei.

Finally, The Times announced that it was untrue that the Chinese cruiser Kwangsi had been sunk.
